  - Color of stain
  - Submit drawing of layout
- 6. Drive/Sidewalk Addition
  - Type of materials to be used
  - Submit drawing of layout
- 7. Shed
  - Type of materials to be used
  - Type of construction
- 8. Satellite Dish
  - Type/Size of Dish
  - Location of Dish
- 10. Pergola
  - Type of materials to be used
  - Type of construction
  - Submit drawing of layout
- 11. Hot Tub
  - Brand/Size/Color etc
  - Submit drawing of layout
  - If the yard backs to green space include method of shielding from view
- 12. Other
  - Include details of change/addition

**GENERAL CONSTRUCTION INFORMATION:**

1. **Shed:** NO cedar, masonite, plastic or metal sidings or construction allowed. Siding must be a textured wood composite lap siding similar to most of the houses in Carlson Farms final phases. Trim board should be a wood composite similar to your house. Shed should be painted the same color as your house body and trim. Structure should be 2x4 construction with concrete or wood base.
2. **Shingles:** need to be Tamko 30yr dimensional - Weatherwood color or Owens Corning Duration Series – Driftwood color (shed roof and house roof). Most houses in Carlson Farms came with the Tamko shingles. The Owens Corning are an exact match to the Tamko.
3. **Trees:** Johnstown has specific requirements for trees and shrubs. Be sure to check with them to make sure you use types approved by them.
4. **Hot Tub:** if you have a 6 foot tall fence around your back yard then the tub can be installed without any additional screening. If you have one of the low split rail fences then the tub will need additional screening so it can not be easily seen from the green space. Verify which style of fence you have and size of tub, color and material the skirt is made from when you submit for tub approval. The area the hot tub is located in must be fenced for safety reasons.

**Brief Description of Work to be done (attach any necessary additional information to this document):**
